NUCLEAR REGULATORY COMMISSION

[Docket No. 030-30266; License No. 30-23697-01E EA 96-135]

21st Century Technologies, Inc. successor Licensee to Innovative Weaponry, Inc., Fort Worth, Texas, Order Imposing Civil Monetary Penalty**I**

Innovative Weaponry, Inc. [of New Mexico] was the former holder of Materials License No. 30-23697-01E issued by the Nuclear Regulatory Commission (NRC or Commission) and which was amended on April 3, 1995 to name Innovative Weaponry of Nevada (Licensee) as the licensee. The license was subsequently amended to change the name to 21st Century Technologies, Inc., and reissued to reflect a move to

Fort Worth, Texas. The license authorized the Licensee to distribute luminous gunsights or weapons containing luminous gunsights in accordance with the conditions specified therein.

II

An investigation of the Licensee's activities was conducted from May 9, 1995 through March 22, 1996. The results of this investigation indicated that the Licensee had not conducted its activities in full compliance with NRC requirements. A written Notice of Violation and Proposed Imposition of Civil Penalty (Notice) was served upon the Licensee by letter dated May 15, 1996. The Notice states the nature of the violations, the provisions of the NRC's requirements that the Licensee had violated, and the amount of the civil penalty proposed for the violations.

The Licensee responded to the Notice in a Reply and an Answer, both dated October 1, 1996. In its responses, the Licensee admitted that the events that constitute the violations occurred, but denied that these were violations of lawful exercise of regulatory authority under the Atomic Energy Act, asserted that the penalty would cause financial hardship, and disagreed with other aspects of the enforcement process.

III

After consideration of the Licensee's response and the statements of fact, explanation, and argument for mitigation contained therein, the NRC staff has determined, as set forth in the Appendix to this Order, that the violations occurred as stated and that the amount of the proposed penalty for the violations designated in the Notice should be mitigated by \$5,000 and a civil penalty of \$2,500 imposed.

IV

In view of the foregoing and pursuant to Section 234 of the Atomic Energy Act of 1954, as amended (Act), 42 U.S.C. 2282, and 10 CFR 2.205, It is hereby ordered that:

The Licensee pay a civil penalty in the amount of \$2,500 within 30 days of the date of this Order, by check, draft, money order, or electronic transfer, payable to the Treasurer of the United States and mailed to James Lieberman, Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852-2738.

V

The Licensee may request a hearing within 30 days of the date of this Order. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request
